State Impact

The provisions outlined in this bill can be handled within existing budgets.

Individual and Business Impact

Enactment of this bill could result in implementation costs to some school districts with schools that do not currently provide a school breakfast program. These start up costs are undeterminable at this time. Schools that do not have kitchen facilities or other associated necessities to accommodate breakfast food services would need to expend funds to provide for these services. Individual students and parents could benefit from services provided by a school breakfast program.
